

# MSc in International Financial Market Analysis

BE AN EXPERT IN THE FUTURE OF FINANCE

This programme equips students with the skills needed to work at the highest levels in finance.

We closely track the Chartered Financial Analyst (CFA) material to prepare for passing the first level of this globally-renowned qualification. We also focus on the most modern technical skills needed including coding in VBA and Python all the way up to machine learning for finance, as well as Bloomberg certification through our Bloomberg lab.

Dr Michael DOWLING,  
Programme Manager
